2024-2027

Modernized products

23 Escalators

Service from: 2024

All escalators **MAX** connected
and equipped with MAX Monitoring

KVB transports approximately 236 million passengers annually, serving as the backbone of public transportation in Cologne and the surrounding region. TKE's digital solutions were a key factor in KVB being awarded a crucial modernization project, ensuring a smarter future for the city's transit system.
