ABOUT TK ELEVATOR

We are elevator people. Striving to move the world. Known for a passion for technology with service at the heart of our business.

Over the past decades, TK Elevator has established itself as one of the world's leading elevator companies and became independent after its sale by thyssenkrupp AG in August 2020. To our customers in over 100 countries, we provide an extensive service network that guarantees close proximity, with over 1,000 locations and more than 50,000 employees.

TK Elevator's most important business line is our manufacturer independent service for mobility solutions represented by over 25,000 service technicians.

Our new installation product portfolio ranges from commodity elevators for residential and commercial buildings to cutting-edge, highly customised solutions for state-of-the-art skyscrapers. What's more, it also consists of escalators and moving walks, passenger boarding bridges, stair, and platform lifts. Integrated cloud-based service solutions, such as the MAX platform, are gaining in importance. These digital offerings mean there are no longer any limits to urban mobility.

Versatile technology maximizes space

By using many advanced features common to our commercial passenger elevators, enta villa will move you around your home with quiet efficiency.

Low-pit design

The pit requirement of just 165mm ensures that the elevator entrance will be level with your home's floor finishes.

This also means little or no digging, and faster, simple installation.

Durable and comfortable

Just like our commercial elevators, enta villa uses counterweights and cars with solid guides rails and roller guide shoes to ensure smooth and quiet travel. Their oil free operation avoids the grease and dirt traps of traditional lubrication to keep your home clean and tidy.

Small shaft, more space

Efficient space utilization in the shaft releases more household space.

Provides a stylish experience

A range of trend-based cabin interiors and fixtures to match every home style.

Designs to match your home

Complement your home's interior design with enta villa's range of seven stylish cabins, each one designed to emphasize your commitment to style. We offer a range of quality finishes for a premium look. Plus a wide range of fixtures to complete your elevator in harmony with your home.

Harmonious lighting

Soft lighting creates a relaxed and pleasant atmosphere, while maintaining a comfortable color temperature below 4000K - ideal for the cozy, soft, and ambient glow that suits home applications best.

PANORAMA

Perfectly complements the quality of your home, adding style and a superior visual experience.
