

META200 SENSE THE DIFFERENCE

meta200 brings an all-round premium experience to your building with classy cabins, smooth ride and utmost safety.

Deloitte.

DLF

meta200

sense the difference

meta200 targets mid-rise buildings in the residential and commercial sectors, where design and performance matters.

Offering inspiring designs and German precision-engineering, meta200 brings an all round premium experience to your building.

Increase your returns

High performance German engineering makes meta200 a great investment.

Underline your building's premium

Trend-based interiors to match your building's style and extend the building's vibe into the elevator.

Provides a stylish experience

With a focus on usability and overall ride comfort, meta200 ensures you travel in comfort and style.

DESIGNED FOR

- Mid-rise residential and commercial buildings

SPECIFICATIONS

- Machine room and Machinerom-less
- Max. travel height: ≤120 m (MR)
- Max. travel height: ≤80 m (MRL)
- Max. number of stops: ≤40 (MR)
- Max. number of stops: ≤26 (MRL)
- Max. rated load: 1632kg
- Rated speed: ≤2.5m/s (MR)
- Rated speed: ≤1.75m/s (MRL)

Increase your returns

Named as one of the World's Top 50 Most Innovative Companies, TK Elevator's advanced engineering leads the elevator industry.

German precision-engineering and the highest code compliance makes meta200 a great investment to enhance your building's value.

With German precision-engineering and market-leading innovations, TK Elevator is one of the world's principle elevator companies. Built on stringent processes and the highest code compliance, meta200 will enhance any building's value.

Extensive application, specification and features to meet the different requirements of your building segment.

meta200 fits a wide variety of applications, meeting the needs of mid-rise buildings across all segments from office, malls and residential. With MR solutions up to 1632 kg at 2.5 m/s and MRL solutions up to 1632 kg at 1.75 m/s, our elevators are equipped with a wide array of features to meet your building's demands.

Underline your building's premium

With cabins based on the latest interior design trends, you can extend your building's vibe into the elevator.

Match your building's style with our trend-based designs.

Our team of experienced designers have studied the latest trends to bring you a range of premium quality cabins that will enhance the look and feel of your building. Using high-end materials, we offer a range of premium designs including etched patterns and highly durable finishes, that add a luxurious visual and tactile dimension to the cabins. Take pride in your building's unified look from entering the lobby, travelling in the elevator, through to arriving at your desired destination.

Sensible safety and security features provide a responsive overall system.

Should power fail, the Automatic Rescue Device (ARD) releases passengers on the nearest floor for immediate exit. Our in-car CCTV camera* helps property management to monitor the situation and our 3-way intercom (elevator cabin, controller and lobby) and an alarm button in the COP always ensures user safety.

FUNCTION LIST

CATEGORY	NO.	FUNCTION	STANDARD / OPTION
Enhanced Car Function	1	ACVVVFClosed loop drive	S
	2	Automatic operation for car fan	S
	3	Full load by-pass	S
Group/Duplex control	4	Continuity of service: car experiencing trouble withdrawn from group	S
	5	2-8 Car group, with independent operation feature	O
	6	Dispersed waiting and Peak service function	O
Human Machine Interface	7	Dot matrix scrolling display in COP, LIOP	S
	8	Door open/door close buttons in car operating panel	S
	9	Car arrival chime on car top	O
	10	Hall indicator with scrolling dot matrix display in red color (landing operating panel will be w/o display)	O
	11	Hall lantern (applicable for duplex only)	O
	12	LCD in car/ landing operating panel (5.7"/ 4.3" blue and white)	O
	13	Provision for music system wiring (in travelling cable)	O
	14	Voice announcement unit (English language only)	O
Monitoring	15	Intercom 3-way (elevator car, controller and lobby/security)	S
	16	Interface to Building Monitoring System (BMS) through potential free contacts / RS485	O
Passenger Comfort	17	Anti-nuisance (car call cancellation at direction reversal)	S
	18	Braille on push buttons	S
	19	Car call cancellation by double pressing floor button in car operating panel	S
	20	Home landing	S
	21	Adjustable waiting time for opening door at the main landing	S
	22	Next landing: onward travel to the next stop in the case of a non-opening door	S
	23	Anti-nuisance "limit number of car call when empty load"	S
	24	Automatic operation for car fan and light	S
	25	Re-levelling with door open (for car travel >30m)	S
	26	Re-levelling with door open (for car travel <=30m)	O
	27	Advance door opening	O

FUNCTION LIST

CATEGORY	NO.	FUNCTION	STANDARD / OPTION
	28	Floor blocking (floor out of service)	O
	29	Parking operation (key switch in landing operating panel)	O
	30	Re-level to nearest floor at power on	O
	31	2nd COP in car (for 13 pax and above)	O
Safety & Emergency Function	32	Alarm button in COP with battery back-up	S
	33	Adjustable door open time	S
	34	Door closing retries	S
	35	Emergency light in COP	S
	36	2D Infra-red screen for car door	S
	37	Inspection operation from controller and car top	S
	38	Jammed landing operating panel call button by-pass	S
	39	Motor overheat protection	S
	40	Overload function with audio-visual indication in car operating panel	S
	41	Phase failure and Phase reversal protection	S
	42	Fire emergency return	S
Security	43	Fireman operation	O
	44	Auto rescue device in case of power failure (Standard for MRL)	O
	45	3D infra-red screen for car door	O
	46	Door nudging	O
	47	Earthquake function (earthquake sensors by customer)	O
	48	VIP Operation (landing operating panel VIP Function)	O
	49	Compulsory stop floor	O
	50	Attendant control	O
	51	Independent operation (car VIP function)	O
	52	Provision for CCTV camera signals (in travelling cable)	O
